

## Screening Services Group – Covid protocols – 07 Mar 22

All are rooms are Open.

We do not require that everyone be vaccinated, nor masked. We do highly recommend that only fully vaccinated, plus two weeks and masked be allowed to attend screenings.

We sanitize after every screening.

HVAC systems:

- Wilshire uses Merv 10 and has a higher change over of air. The air goes to the roof and returns. There is a separate Merv 13 filter in the screening room.
- Rodeo uses Merv 10 filters. The air goes to the roof and returns. There is a separate Merv 13 filter in the screening room.
- Sepulveda uses Merv 13, has a higher air change over and has independent HVAC and does not share air with the rest of the building.
- Fine Arts uses Merv 13, has a higher air change over and has independent HVAC and is a single screen building and does not share air with anyone else.

We are full capacity:

- Fine Arts - 410
- Sepulveda - 71
- Wilshire – 50
- Rodeo – 49
- QC Room – 19

The maximum capacity does not include reps, or security. (Except Rodeo, 49 max per fire code.)
